

Simplify Onboarding Using Our Integrated Sterling I-9 Solution

Sterling's Form I-9/E-Verify solution seamlessly integrates with Dayforce, ensuring quick employment eligibility verification without relying on external providers.

Benefits

Our fully owned solution allows faster response times, aiding compliance with USCIS requirements and accelerating new hire onboarding through reduced manual processes.

Paired with Sterling's pre-built background screening integration with Dayforce, you can conveniently order background checks and verify employment eligibility within the Dayforce environment.

These integrations streamline your hiring process, offering a cohesive experience for recruiters, candidates, and new hires.

Here's How it Works:

- Initiate Form I-9 orders from within the Dayforce Platform. Once your order is initiated, you'll receive overall order status updates in your Dayforce platform
- New hires can electronically complete the Form I-9 Section 1 task hosted by Sterling within their Dayforce Onboarding Portal
- Once the new hire has completed their portion, designated verifier can launch a Sterling-hosted Form I-9 Section 2 task within their Dayforce platform
- Our interactive dashboard allows you to access customizable reports for seamless Form I-9 management and audits

Sterling Advantage

- Our dedicate support team and automated tools help make implementation easier
- Built-in compliance tools and process help to mitigate risk
- Onboard faster with streamlined processes, increased productivity, and quick responses from our fully-owned and operated I-9 solution
- Simplify document management and audits with our interactive dashboard that provides centralization and customization
